Panera Kids Menu: Prices & Calories

Kids Mac & Cheese

The richer, more indulgent option of the two comfort-food choices, and a middle-of-the-road pick calorie-wise. Popular with younger kids in particular, and generally a safe order if your child already likes mac & cheese at home.

Price: $7.79

Calories: 490

Kids Broccoli Cheddar Soup

The lowest-calorie item on the menu by a wide margin, and tied for the cheapest. Works well on colder days or for kids used to eating soup at home. This is the closest thing to a lighter option on this menu, though it's still a cheese-based soup rather than a "diet" choice.

Price: $6.99

Calories: 280

Kids Turkey & Cheese Sandwich

The most expensive item on the menu, tied with the ham & cheese version. A better fit for kids who prefer sandwiches over pasta or a melt, and a reasonable middle-calorie option between the grilled cheese and the soup.

Price: $7.79

Calories: 630

Kids Ham & Cheese Sandwich

Nearly identical to the turkey version in both price and calories. The choice between the two really comes down to protein preference rather than any meaningful nutritional difference.

Price: $7.79

Calories: 640

Kids Grilled Cheese

The cheapest item on the menu, and the safest bet for picky eaters: simple, familiar, nothing unexpected. It's also, somewhat counterintuitively, the highest-calorie item on the list, so it's not automatically the "lighter" choice just because it looks simple.
